PROFILE

Passionate web developer with a growing skill set in modern web technologies. Proficient in developing clean, responsive designs using HTML, CSS, JavaScript, and React, with experience in backend development using Node.js and Express. Quick learner, effective communicator, and excited to contribute to team-based development projects.

WORK EXPERIENCE

Todo List App

Self project – 2025

- Built a dynamic, responsive todo list app using React, JavaScript, and CSS.
- Implemented add/edit/delete task functionality and used React Hooks for state management.

Grocery List App

2025 - 2029

Tech Used: HTML, CSS, JavaScript

- Created a simple web app allowing users to add and remove grocery items dynamically.
- Implemented input validation and DOM manipulation using vanilla JavaScript.

Currency Converter

2024 - 2025

HTML, CSS, JavaScript, REST API

- Built a real-time currency converter using exchange rate API.
- Implemented dynamic input handling and fetch-based asynchronous requests.

Budget Tracker

HTML, CSS, JavaScript

- Created a personal finance tool to track income and expenses with a real-time balance update.
- Employed modular JS to handle form inputs and data rendering.

Portfolio Website

React

- Built and deployed a personal portfolio site to showcase web development projects.
- Designed responsive layout with clean navigation, resume section, and project links.
